

SUBSEA CENTER POLE BASKET | TECHNICAL SPECIFICATION

SWL	6 000 KGS
Netto Weight	1 200 KGS
Max Tot. Weight	7 200 KGS
Dimensions	See drawing on page 2
PadEye Centerpole	9,5 Te
PadEye 4 x on Basket Corners	4,75 Te

- Centerpole can be removed upon request, where the lifting point option then will be 4 X 4,75 Te welded PadEyes (1 in each corner)
- Standard basket is delivered with lid on one side of centerpole, which can be locked in open (requires centerpole) or close position with ROV
- Due to the outer dimensions of 2500mm X 2500mm, it can easily be mobilized anywhere since there then is no requirements for "Wide Load" transport on roads
