

Saga Subsea Transponder Guard For cNODE MiniS

Your Trusted Partner for Offshore Engineering,
Equipment Rental, Personnel & Ship Agent Services

The cNODE MiniS Transponder guard is easily mounted on to protect the transponder from damage when bumped by ROV, Manipulator or even dropped on deck while handling. The guard is machined in POM material and can very easily be installed on top of the TX transducer head. The design suits both MiniS 34-40 and model MiniS 34-180.
