

# Saga Subsea Grit Entangled Nylon Brush

---

Your Trusted Partner for Subsea Engineering,  
Equipment Rental, Personnel & Ship Agent Services

The Grit Entangled Nylon Brush is a robust and effective brush for marine growth removal subsea. Its Grit Entangled Nylon gives a coarser effect that reduces the time and force needed to remove different types of marine growth. Can be sold separately or rented together with our ROV operated Cleaning Tools. Delivered with drilled hole circle, ready for mounting of wire if required. The brushes have an OD of 380mm.
