

Saga Subsea Wire Brush With Grit Entangled Nylon

Your Trusted Partner for Offshore Engineering,
Equipment Rental, Personnel & Ship Agent Services

The Grit Entangled Nylon Brush is a robust and effective brush for marine growth removal subsea. This particular brush have in addition a Stainless-Steel Wire mounted to give a coarser effect. This also increases the lifetime of each brush. With the wire mounted, you reduce the time and force needed to remove different types of marine growth. Can be sold separately or rented together with our ROV operated Cleaning Tools. The brushes have an OD of 380mm.
