

Saga Subsea ROV Fishtail Standard

Your Trusted Partner for Offshore Engineering,
Equipment Rental, Personnel & Ship Agent
Services

Standard ROV Fishtail is used as standard on many versions of ROV tools and Subsea equipment. The handle give the operator several angles to hold a tool. As standard the Fishtail is produced in AISI 316L Stainless- Steel. The Fishtail can be delivered in whatever length required. Can also be delivered with flange welded on and also assembled together with Flexijoint.
