ROV OPERABLE MAGNET

Your Trusted Partner for Offshore Engineering, Equipment Rental, Personnel & Ship Agent Services

E-mail: post@sagasubsea.no | Tel: +47 52-SUBSEA (52 78 27 32) | +47 904 00 631

The ROV Operable Magnet attaches tooling to magnetic surfaces and is frequently used on drilling tools and saws. It can also be supplied fitted to an ROV grabber bar, as a grabbing point on structures that have none. The magnet is engaged and disengaged with a lever by the ROV manipulator, and has a lubrication point for internal grease filling to prevent water ingress.

SAGA SUBSEA

ROV OPERABLE MAGNET

Technical specifications:

Body Material:	Stainless steel and aluminium
Weight in air:	6 kg
Height:	80 mm
Length:	210 mm
